# CHALLENGE

Growing company requires more cranes

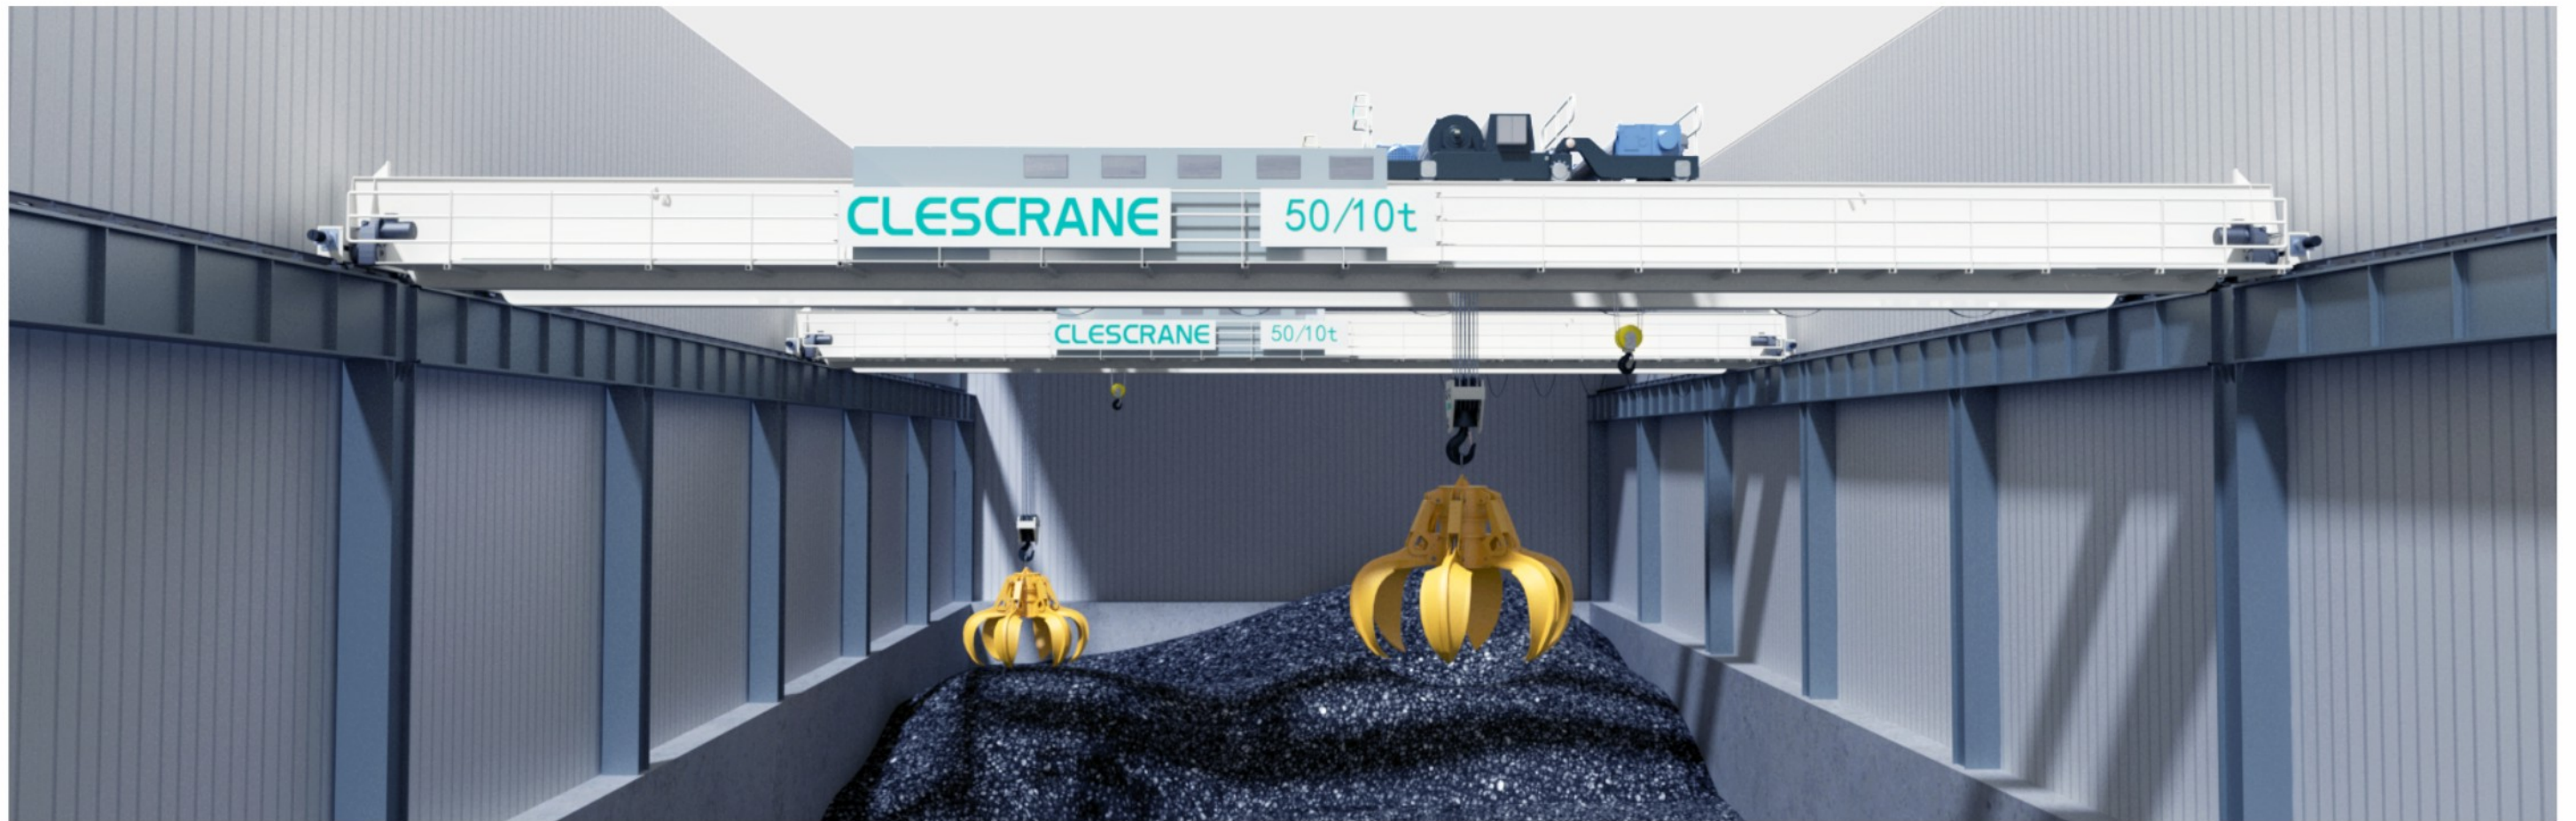

## Kazakhstan Mining Company

Kazakhstan Mining Company was founded in 2004, it is a fully integrated copper producer which is engaged in the mining, processing, smelting, refining and sale of copper and copper products (including cathode copper and copper rods). It is the largest copper manufacturer in Kazakhstan and the tenth largest in the world. They also produce and sell a significant amount of zinc, silver and gold as a by-product. In addition, Kazakhstan Mining Company is the largest electricity supplier locally, providing more than 20% of the country's electricity.

With the rapid development of its business, Kazakhstan Mining Company needs to purchase cranes for usage in the mining and handling of copper mines in two mining mills in different regions.

# CLESCRANE YOUR PARTNER

## Tailor Made Solutions

Underground and open pit mining operations may face a number of hazardous environmental factors. CLESCRANE understands the challenges faced by the mining industry and the problems that may cause by equipment failure. We manufacture a wide range of lifting equipments for every possible application and production capacity in the mining industry and provide our customers with tailor-made crane solutions to help them choose the best way to lift.

# SOLUTION

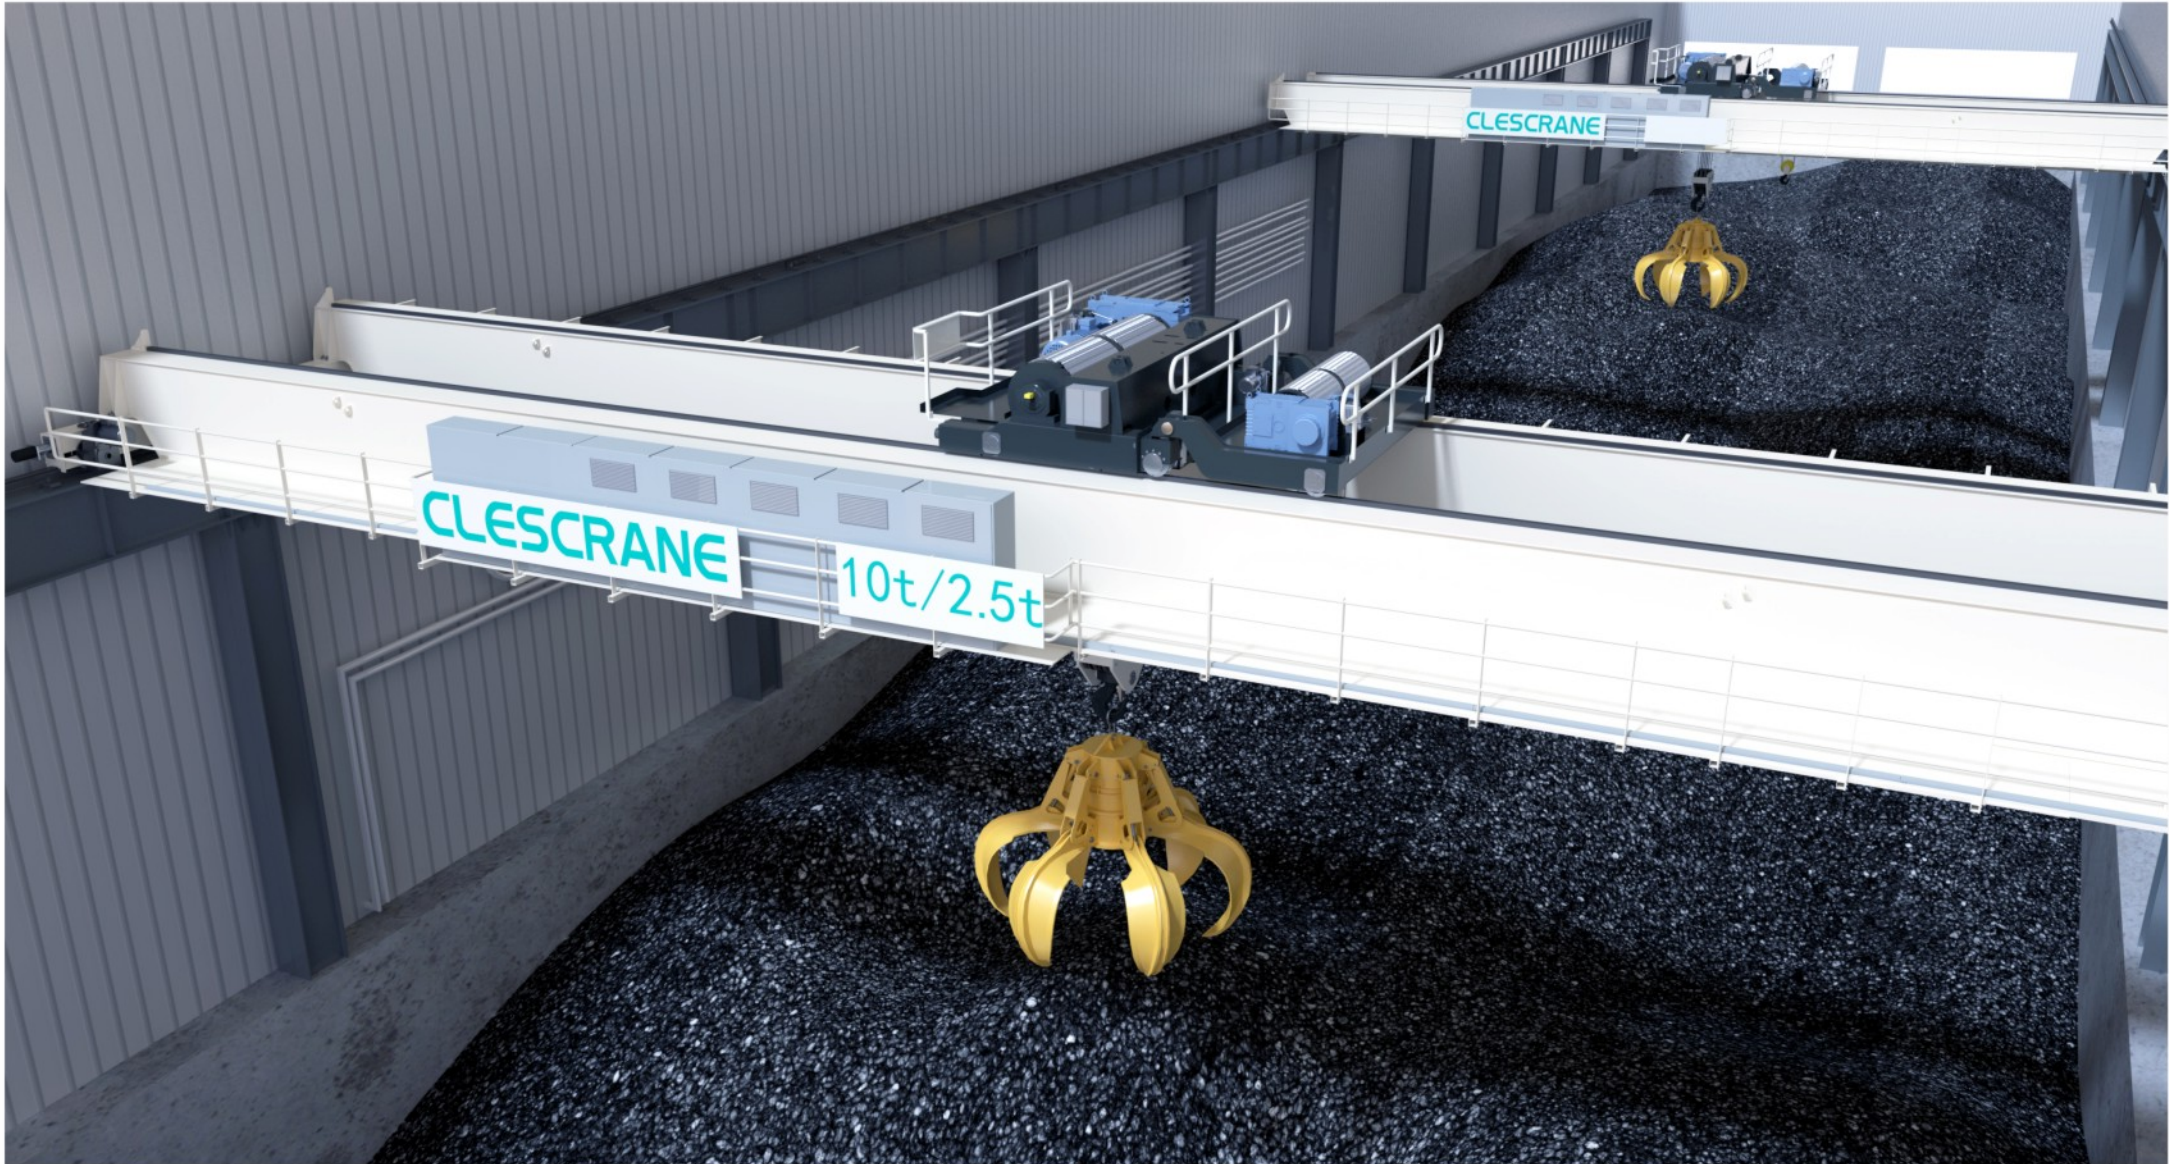

## Clescrane provides Overhead Cranes

After in-depth exchanges with our customer, we recommended CWD series open winch overhead cranes. CWD series open winch overhead cranes shall be the ideal option for harsh working environment. It can be flexible and configurable to meet the specific needs of our customers and are suitable for almost all industrial scenario and can handle heavy duty work flow smoothly.

On April 16, 2017, Clescrane signed contract for two sets of CWD series open winch overhead cranes (CWD10 / 2.5-28.5m, H = 19.5m A8 2 sets) with Kazakhstan Mining Company.

### Equipment List

Model	Qty.
CWD10/2.5-28.5m, H=19.5m A8	2

- ▶ European standard, first class quality.
- ▶ High efficiency, energy-saving, safety.

Provide customers complete solving plan for crane customers and material handling lifting.

Clescrane will create continuous value for customers. ◀

## RESULTS

Quality products  
and service satisfy  
the customer

The mining industry has always been one of Clescrane's major target industries for crane solutions. Many industries require special, dedicated cranes for their specific processes. Capacity of Clescrane crane can reach hundreds of tons by customizing. And we can also optimize designs to meet your specific lifting requirements.

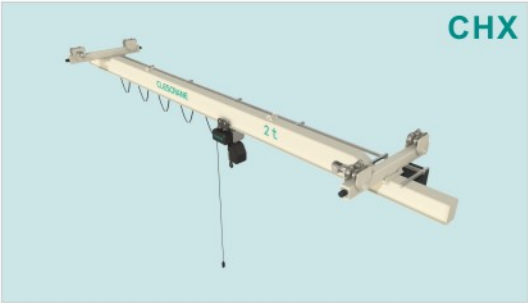

We will work closely with you to make every crane perfectly tailored to the specific situation and to ensure that each lifting solution is just right for your lifting needs.

Clescrane, your trusted partner.

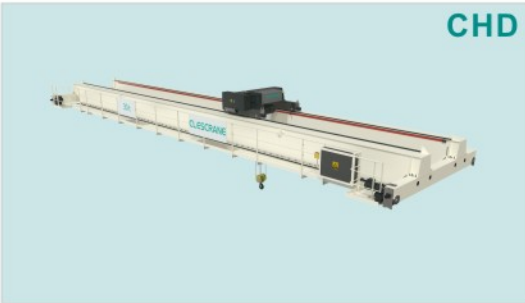

# PRODUCTS

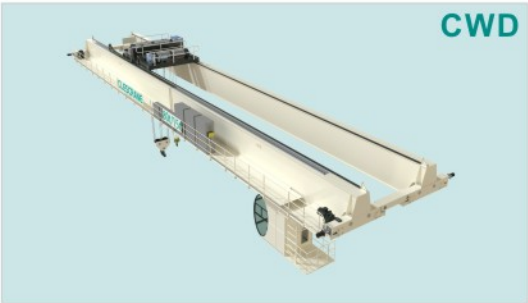

CHS Series Single Girder Overhead Crane  
Max. Load: 20t

CHX Series Single Girder Suspension Crane  
Max. Load: 10t

CHD Series Double Girder Overhead Crane  
Max. Load: 100t

CWD Series Double Girder Overhead Crane  
Max. Load: 320t

CHG(S) Series Single Girder Gantry Crane  
Max. Load: 20t

CHG(D) Series Double Girder Overhead Crane  
Max. Load: 100t

CWG Series Double Girder Gantry Crane  
Max. Load: 320t

Max. Load: 100t

CJZ Series Pillar Mounted Jib Crane  
Max. Load: 10t

CH Series Wire Rope Electric Hoist  
(for Single Girder Crane)  
Max. Load: 20t

CH Series Wire Rope Electric Hoist  
(for Double Girder Crane)  
Max. Load: 100t

CW Series Open Winch Trolley  
Max. Load: 320t

# SERVICE

Our service solutions are specially made based on different requirements of individual clients.

Meeting their standards could remove any of their worries.

Including:

- Customized solutions
- Reliable, efficient and safe crane equipment
- High quality packaging
- Installation and assembly & test running
- Professional training
- Plenty of spare parts
- Maintenance
- Analysis and suggestions
- Intelligent crane design software
- The experienced team of engineers

Clescrane's service pack is safe and costs less.

Clescrane's service pack also applies to cranes and hoists produced by other manufacturers.

# OPTIONS

### Safety

Sophisticated load handling methods reduce the risk of collisions and accidents.

### Productivity

Time savings in load handling and final positioning makes processes more efficient.

### Cost savings

Long life components and less maintenance work results in better economy.
